

MOHAMMED THASLEEM

FRONTEND DEVELOPER

mohammedthasleempm@gmail.com | [portfolio](#) | [linkedin](#) | +91 7025374773

Summary

Front-end Developer with 3+ years of experience in responsive web development, UI/UX design, and building secure, scalable web applications. Proficient in translating wireframes and prototypes into high-performance user interfaces using modern JavaScript frameworks. Strong background in cross-functional collaboration, usability optimization, accessibility standards, and maintainable code practices.

Technical Skills

Languages: TypeScript / Node, JavaScript, HTML5, CSS3

Frameworks: React, Next.js, Redux, Node.js, GraphQL, Express, SASS, Bootstrap, Tailwindcss, CSS-in-JS, Ant Design

Tools: VS Code, Git, GitHub, Netlify, Firebase, Figma

Practices & Methodology: Agile, TDD, Refactoring best practices, Design principles, WireFraming, Prototyping

Others: Jest, Playwright, Webpack, SonarQube, Storybook, WireMock, Design Systems

Work History

Fiddlekube – Service network

February 2023 – Present

Frontend Engineer (UI/UX Specialist)

Remote

- Collaborated with cross-functional teams and backend developers to translate project requirements, wireframes, and prototypes (Figma) into high-quality, responsive React web applications.
- Designed intuitive user interfaces and end-to-end user experiences while ensuring seamless integration between frontend components and server-side logic.
- Implemented best practices for code quality, performance optimization, maintainability, and design system consistency to deliver scalable, user-friendly digital products.

Ondace – Medical supply manufacturer, distributor

March 2022 – February 2023

Frontend Developer (Contract)

Remote

- Foundational team member who developed business-critical features, including a patients-per-day **census management system** that improved billing evaluation accuracy.
- Led the design and integration of scalable, **reusable UI components** using Storybook and ReactJs, aligning with enterprise architecture standards.

Projects

Cohubitate – Simplify shared living

February 2023 – Present

React, Firebase, React-Query, Ant Design, SCSS

- A comprehensive web application designed to streamline household management.
- Allows users to assign and track chores, search for tenants, and request maintenance services via a centralized platform.
- Features intuitive interfaces and customizable options to create a harmonious household management experience.

QuickMed – Medical supply manufacturer, distributor

March 2022 – February 2023

React, TypeScript, Tailwind, react-query, Vitest, React Testing Library, Playwright.

- An Emergency Medical Service application designed for large event organizers, focusing on attendees at large gatherings.
- Provided robust performance and real-time updates using React Query and Redux for state management, integrated with Python and Django backend for handling real-time data.

Education

Open Source Society University

June 2020 – Jan 2022

Bachelor's Degree, Computer science

Kerala, India

Calicut University

March 2020

Bachelor in Business Administration

Kerala, India
